For List of Premiums and Particulars Distribution, see the Weekly Enquirer and Subscription Circulars!

WE, this year, offer prizes to the above amount as an incentive to those of our patrons who will exert themselves to form clubs. If our paper could be taken in the household of all our Democratic friends, South and West, its influence would be potent is clanging the political aspect of affairs. The great point for which all friends of the Union should labor for is the Dissemination of Democratic truth. If it had had an equal hearing with the errors of our opponents, we should never have had the terrible crisis of the last five years. Taught by sad experience of its necessity, we trust the Democratic press is in future to have a larger sphere of influence and circulation.

reulation. What evils have fallen upon the land, owing to th

circulation.

What evils have fallen upon the land, owing to the erroneous political eduation of the masses! If we would restore the old order of things once more, elfect National Unity and the old-fashioned Peace and Presperity, we must place the Democracy again in power. As auxiliary to this end, and as the most effective agent in the work, we repeat, is the circulation of the Democratic press.

The Enquirer has some claims upon the consideration of the Democracy that are universally acknowledged. Through proscription and persecution unexampled, with military edicts cutting off our circulation in whole States and districts, threatened with total suppression, personal imprisonment and mob violence if we did not change our course, we stood by the Democratic flag and gave expression to its tenets. Twice burned to the ground within thirteen months, and amid the greatest pecuniary disasters consequent upon it, we have never lost an issue of our paper, or broken a promise to any our subscribers. In the future, as in the past, under the sun of prosperity as well as the clouds of adversity, we shall bear aloft the Democratic Banner, and be faithful to its organization. Will not the Democracy of the Northwest stand by them who were true in the darkest hours to their political and personal interests, and will they not exert themselves to increase our circulation?

As a business and family journal, the Enquirer has

crease our circulation?

As a business and family journal, the Enquirer has no superior. Each number contains a large amount of general news, latest, and most reliable intelligence and reading matter. Reparator Capilla.

Throw away your false frizzes, your switches, you wig— Destructive of comfort, and not worth a fig; Come aged, come youthful, come ugiy and fair, And rejoice in your own luxuriant hair.

FOR restoring hair upon bald heads (from whatever a creatise it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five to eight weeks, or hair upon heads in from two to three. A few practitioners have asserted that there is not ing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the gentine from the spirious? It certainly is difficult, as nine-tenths of the different Preparations advertised for the hair and beard are entirely worthless, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator Cappill; it will cost you nothing unless it filly comes to our representations. If your Bruggist does not keep it, send in one dollar and we will forward it, postpaid, together with a re-espt for the money, which will be returned you on application, providing entire, satisfaction is not given. PROSPECTUS

For 1867. The Seventh Volume and the Seventh Year of the publication of Tan Causes is about to begin, and, in accordance with cusom, we issue our Annual Prospectus. We need not recapitulate its history during the stormy years of its existence, nor remind those who have read it, of its services in be-half of the great principles of the Democra-cy, and what its conductors conceived, and what time has shown, to be the best interests of the country. Its merits have been ac-knowledged from the time it was started by that veteran and distinguished journalist, Gov Menany, and its present conductors simply claim for it the credit of an earnest and undeviating adherence to the plan and principles of its founder. In all the politi-cal vicinsitudes of the past six years—the

On the score of principle we claim for it the merit of fidelity, honesty, and consist-ency. As a newspaper we claim for it the merit of being an exponent of Western interests and ideas, a reliable journal of the times, a valuable companion of the farmer, the mechanic, the business man, and the family circle. It is our aim to fill the large sheet with matter of real interest and permanent value—to discuss questions of principle that are of real significance, to inform, improve, and instruct, as well as amuse and to this end we diseard the idle twaddle which goes so far to fill up the daily papers, the obscene advertisements and the sensational folly of the day. We could publish hundreds of letters from the best men of the country approving of the course of Tag Causes in this respect, and to this course we propose to rigidly adhere. The reliable market reports and the great amount of statistical, agricultural, financial, and political information we publish, is of importance and vatue to business men, farmers, mechanics, and politicians; while the carefully selected page of literary miscella-ny which each number contains, commends

it to the home circle of all. The political views of THE CRISTS scarcely require definition. It is in favor of Democratic principles in all their breadth and purity, as expounded by Thomas JEFFERSON, and the other really great men and founders of the Government, and upon which the Government was successfully conducted for seventy years. It is opposed to the Abolition despotism which now controls the Federal Government, in all its shapes and under whatever device it may appear. It is opposed to the entire Abolition theory of politics, and all the monstrosities, humbags, and delusions which grow out of it. It is opposed to the thieving assaulty, the ty-rannical assumptions, the stupid and bar-barous policies and the lawless usurpations of Congress, and to all the machinery that the Jacobins have devised and put in opera-tion to overthrow Republican Government, inaugurate anarchy and absolutism, enslave the people, and oppress them with odious taxes, and tyrannical, insane, and corrupt legislation. And in advocating the correct principles and opposing the evils we have named, we shall continue to do it without

fear or favor. In order to successfully conduct such a paper as THE CRISIS, it must have a large list of subscribers; and to secure that we taken the paper. We cannot compete with the cheap, shoddy publications of the East by offering begus premiums or employing traveling agents; but we earnestly solicit the aid of our readers in extending our circulation by their personal efforts. It will require but little exertion from each, but the aggregate will enable us to furnish them with a paper fully equal in size, superior in print to any Eastern publication, and of a great deal more interest and importance to Western Democrats. Friends, shall we call upon you in wain, for the small favor we ask, and in a cause of such magnitude and value? Now is the time to send in subscriptions for the new volume, which, at the end of the year, will be worth thrice tha

amount of the subscription price. Our terms are \$3.00 per year, \$1,50 for six months, \$1.00 for four menths. One extra copy will be sent to any one getting up a club of six yearly subscribers; and to any one sending a club of ten for six
